

A guide to your Slideaway Sofa Bed

Life is better together.
Please assemble with
two people.

What comes with your Slideaway Sofa Bed

You should have 4 boxes in total.

Back/Arm box

1x Back/arm frame

1x Short leg

2x Long legs

10x Hand screws

What comes with your Slideaway Sofa Bed

Base box

1x Base frame

Cushions box

1x Seat insert

1x Back insert

2x Back cushion insert

2x Side cushion insert

What comes with your Slideaway Sofa Bed

Cover box

1x Seat cover

1x Back cover

2x Back cushion cover

2x Side cushion cover

Before you begin assembling we recommend thoroughly cleaning the floor where your Slideaway Sofa Bed will sit to ensure no debris gets trapped under the sliding legs.

1.

Place the frame upright, unfold the arms and set aside.

2.

Screw in the legs.

Lay the base frame on the ground upside down and look for the L engravings in the wood.

Screw in 3x legs. Then flip it over.

3.

Slide the base frame towards the back/arm frame.

Note: Be careful flipping the base as the slats may slide out.

4.

From behind the frame, screw in 2x hand screws into the base frame to attach it to the back/arm frame.

Lift the base to align the holes before screwing.

Screw in from underneath.
Use the holes on the base to locate the screw.

5.

Screw 8x hand screws into the base.
Your frame is now complete.

We recommend pulling the slats out for visibility.

Screw in from underneath.
Use the holes on
the base to locate
the screw.

6.

From the cushions box, remove the vacuum-sealed cushions.

Make sure your cushions are on a spacious flat surface, as they will start to expand once the vacuum seal is broken.

Open the vacuum-seal carefully with scissors.

1.

2.

Note: Do not use a knife to cut open the plastic.

7.

Align the covers to the mattress seat.

Make sure the mattress cover and mattress seat insert line up before moving to the next step.

Zipper label should align with the zipper line once the covers are on.

Make sure the quilted, round edge of the mattress seat insert is inserted first.

Note: The edge of the cover with two zips is facing downwards towards the floor.

8.

Align and adjust.

Ensure you align the corners of the insert to the corners of the cover for an even, unwrinkled look.

Note: Curve the mattress before putting on covers for easier assembly.

9.

Align the covers to the mattress back.

Repeat steps 7 and 8 for the back insert.

10.

Zip up both mattresses covers.

1.

Bring each side of the cover up and pull together to make zipping easier.

2.

Press the mattress insert down with one hand and use the other to zip up the cover.

11.

Zip the mattresses together.

Make sure you align the mattresses together before zipping them to each other.

12.

Place covers on back cushions.

Ensure you align the corners of the insert to the corners of the cover for an even, unwrinkled look.

Note: Zipper label should align with the zipper line once the covers are on.

13.

Align and adjust.

Squeeze the cushion insert before putting on the covers for easier assembly.

14.

Put the covers on side cushions.

Repeat steps 12 and 13 for the back cushions and side cushions.

15.

Zip all four cushions up.

Don't forget to
plump up your
cushions to even
out the inserts.

Note: For ease, have a partner hold either side of the cover together while you zip.

16.

Place the mattress and cushions on and enjoy!
